

ARCTIC INVESTMENT SEMINAR | APRIL 26, 2018

ACRM is pleased to welcome you to this investor meeting. The investor meeting is focusing on investment and financing opportunities specifically relevant for the extractives industry and infrastructure operations in the arctic region.

For Danish and Scandinavian companies, the arctic region is an interesting and emerging market close to home. However, finding the necessary financing for investments can be a challenge. With their investment seminar, Arctic Cluster of Raw Materials, has invited potential investors and advisors to present and discuss how to secure finances for companies operating in the world's most northern region. During the meeting you will have a unique chance to hear what kind of projects investors are looking for and to ask them questions.

TIME 13:00-15:30

PLACE Confederation of Danish Industry, HC Andersens Boulevard 18, 17887 Copenhagen V
